Members' Website Feature on ISPI Vancouver Website

As a **free** service to our members and www.ispi-van.org site visitors, we will add a Members' Sites section to our [Sites of Interest](#). It will be similar to the Members' Sites feature at the [New Mexico ISPI](#) site. Each entry will consist of three parts:

- The organization name, hyperlinked to the URL (usually your home page)
- The ISPI Vancouver member's name (your preferred form of your name)
- A brief identification of that member (normally your title in the organization, e.g., President, Consultant, Training Manager, Director of Human Resources)

This step, which is on a "pilot" basis, is consistent with the 10-point [ISPI Vancouver e-Strategy](#). It is practical at this time because we have been successful in gathering members' input efficiently with Zoomerang.

All members are encouraged to use the Members' Sites feature. We anticipate that it will be of greatest value for members with small businesses, who will benefit from improved search engine rankings in addition to business name advertising and traffic from our popular site. (Our April Webtrends stats showed over 1,250 visits, with an average visit of *over 15 minutes*. The stats keep improving every month.)

Go to <http://www.zoomerang.com/survey.zgi?4DTC60XB8X3G5S4X98959K8F> to submit your site. You have until June 5 to act on this offer, but please act now.

Where possible, please include a link back from your Website to ISPI Vancouver's www.ispi-van.org site. That will be good for the chapter, and it may add to your organization's credibility.
